ning of each regular issue of the PCT Gazette.*

WO 2004/006888 A2

(54) Title: STABILIZATION OF THE PROFILE OF RELEASE OF ACTIVE SUBSTANCES FROM A FORMULATION

(57) Abstract: The invention discloses a method of a physical pre-treatment of an active substance, which modifies technologically important physical properties of the active substance so as to enable the manufacture of a formulation having a more stable release profile of the active substance over the whole shelf life of the medicine than the profile would be with the same composition, but without pre-treatment.
